Supervisor District Population Certification

Plan 2 and Plan 3 Counties Only

County: Mitchell

Ideal District Population

Divide the population of the county by the number of supervisor districts.

10776	÷	5	=	2155	ideal district population
County population		# districts			

[§42.4(1)(a), 331.209(1), 331.210]

Maximum Allowable Variation

Multiply the ideal district population by 0.01.

2155	x	0.01	=	21.55	maximum allowable variation
Ideal population					

[§42.4(1)(a), 331.209(1), 331.210]

District Variations

- Enter the population for each district on the chart below.

- Compare each district population with the ideal district population. Subtract the smaller population number of the two from the larger. List the difference in the "Variation" column.

- Total the populations of all districts. The total must equal the census population for your county.

- Total the variations for all districts to determine the overall variation.

District	Population	Variation
1	2169	14
2	2171	16
3	2144	11
4	2145	10
5	2147	8
	10776 = total population	59 = overall variation

Important Note: If the variation of any district is greater than the maximum allowable variation, the board of supervisors must publish the justification for the variation in one or more official newspapers within 10 days after the plan is adopted. Proof of publication must be included in the materials sent to the Secretary of State.

[§42.4(1)(a), 331.209(1), 331.210]

State of Iowa
County Redistricting Worksheet
Supervisor District Population Certification

County: Mitchell

Average Variation

Divide the overall variation by the number of supervisor districts.

$$\frac{59}{\text{Overall variation}} \div \frac{5}{\text{\# districts}} = \underline{11.8} \text{ average variation}$$

If the average variation is greater than the maximum allowable variation, the plan must be rejected.

[§42.4(1)(a), 331.209(1), 331.210]

District Size Comparison

Divide the population of the largest district by the smallest district.

$$\frac{2171}{\text{Largest district pop.}} \div \frac{2144}{\text{Smallest district pop.}} = \underline{1.01}$$

This number must be 1.05 or less. If it is greater than 1.05, the plan must be rejected.

[§42.4(1)(a), 331.209(1), 331.210]

I hereby certify that this is a complete and correct list of the supervisor districts in this county and that the population data included is correct.

Precinct #5: Contains all of Douglas, Burr Oak, and East Lincoln Townships, and that part of West Lincoln Township located East of US Highway 218 of which are census blocks 1080, 1088, 1089, 1090, 1110, 1111, and 1137 and also referred to as Sections 2, 3, 10, 11, 14,15, and that part of Section 2 in West Lincoln Township.

Precinct #6: Contains all of Wayne and Jenkins Townships and Liberty Township, except that part of Liberty Township census blocks 2099, 2100, 2102 through 2117, 2121 through 2123, 4084, and 4095 and also referred to as Sections 1 through 10, 12, 16, 17, and 18. This precinct includes the cities of McIntire and that portion of Riceville within Mitchell County.

Precinct #7: Contains all of Union and Stacyville Townships and that part of Liberty Township census blocks 2099, 2100, 2102 through 2117, 2121 through 2123, 4084, and 4095 and also referred to as Sections 1 through 10, 12, 16, 17,and 18.This precinct includes the city of Stacyville.

Precinct #8: Contains all of Otranto, Newburg, and Rock Townships. This precinct includes the city of Carpenter.

Precinct #9: Contains all of St. Ansgar Township and that part of Mitchell Township of which are census blocks 1032 through 1041, 1043, 1044, 1045, and 1057, and also referred to as Sections 21 through 29, and part of Sections 32, 33, and 4. This precinct includes the city of St. Ansgar.

Precinct #10: Contains Mitchell Township except that part of Mitchell Township of which are census blocks 1032 through 1041, 1043, 1044, 1045, and 1057, and also referred to as Sections 21 through 29, and part of Sections 32, 33, and 4, and except that part of Cedar Township of which are census blocks 1100, 1101, 1132, 2069, 2087, 2088, 2089, 2130 through 2133, 1052, 3050 through 3053,and 3060 also referred to as Sections 11, 14, and that part of Sections 1, 2, 12, 13, 35, and 36 in Cedar Township. This precinct includes the city of Mitchell.

Precinct #11: Contains that part of Osage Township west of the city of Osage census blocks 1107, 1108, 1114 through 1118, 1127 through 1130, 2138, 2063, 2140, 3020, 3054, 3059, 4001 through 4006, and 4054 and also referred to as Sections 14, 22, and that part of Sections 15, 21, 23, 26, 27, 28, and 35 in Osage Township, and that part of Cedar Township of which are census blocks 1100, 1101, 1132, 2069, 2087, 2088, 2089, 2130 through 2133, 1052, 3050 through 3053, and 3060 also referred to as Sections 11, 14, and that part of Sections 1, 2, 12, 13, 35, and 36 in Cedar Township.

Precinct #12: Contains that part of Osage Township east of the city of Osage census blocks 1043, 1044, 1047 through 1052, 1071 through 1076, 1106, 2000, and 4000 and also referred to as Sections 13, 17

through 20, 29, 30 and that part of Sections 24, 25, 31, 32, and 36 in Osage Township, and except that part of West Lincoln Township located East of US Highway 218 of which are census blocks 1080, 1088, 1089, 1090, 1110, 1111, and 1137 and also referred to as Sections 3, 10, 11, 14, 15, and that part of Section 2, 34, and 35 in West Lincoln Township. This precinct includes the city of Orchard.

Statement of each district's population, including the deviation of each district's population from the ideal district population.

WHEREAS, certain deviations and standards must be met according to Iowa Code Section 42.4, these are the deviations:

Total Mitchell County census, 10,776 according to the 2010 census.

Ideal size of supervisor's districts – 2,155.

First District census	2169 – 2155 (ideal) = +14
Second District census	2171 - 2155 (ideal) = +16
Third District census	2144 - 2155 (ideal) = -11
Fourth District census	2145 - 2155 (ideal) = -10
Fifth District census	2147 - 2155 (ideal) = -8
Total deviation from ideal	59

There is no district that deviates from the 1% of the ideal district.

The overall deviation is not in excess of the 1% of the total census.

The largest district divided by the smallest = 1.0125932 and therefore meets that criteria.
